

**INTERPRETATIONS & APPLICATIONS
OF BUILDING CODES & REGULATIONS #96-2**

CODE SECTION : IMC Chapter 8, IFGC 503.6.6

07/03/96 rev. 9/16/03

SUBJECT : TERMINATION OF TYPE B VENTS

In single-family residences with roof slopes of 7/12 or less only, Type B or BW gas vents eight (8) inches in size or smaller shall be permitted to terminate 12 inches above the roof, and at least four (4) feet from a vertical wall or similar obstruction. All other types, sizes, locations and occupancies shall conform to the requirements of the International Mechanical Code, Chapter 8, and the International Fuel Gas Code, Chapter 5.
